Summary of Partnership  
July 1, 2006 – June 30, 2007  
Forsyth County Department of Public Health  

HEALTH CAREERS, DIVERSITY & RECRUITMENT  
Northwest AHEC (NW AHEC) offers health careers awareness programs (30-45 minutes per program) in schools for grades K-8 and structured programs for grades 9-12 (twenty hours or more).

Grades K-8— A total of 1,293 local students and staff from Forsyth County participated in 10 health careers’ presentations as follows:

<table>

</tr>
</tbody>
</table>

* Puppet Bunch is designed for grades K-2, CATCH for grades 3-5, and Cool People, Cool Careers for grades 6-8.

Grades 9-12— Forsyth County participated in the Summer Camp Med Program which was a partnership between Forsyth Medical Center of Novant Health and the Winston-Salem/Forsyth County Schools. Each partnership is offered $1,500 in support of the program which usually consists of a collaborative effort between the local hospital and the local school system to organize a one week, day camp for high school students to explore a variety of health careers. A total of 14 students participated in a total of 20 hours of health careers exploration in Camp Med Forsyth County. NW AHEC will make this offer again in November 2007 for a summer 2008 program.

Six students from Forsyth County participated in the NC AHEC annual “Future Leaders in Healthcare Conference” which was held during the fiscal year. This educational conference provides high school students from across the state, who are interested in health careers, an opportunity to learn more about health occupations while also learning more about the post-secondary programs oriented toward careers in health. Two students from Forsyth County participated in the summer 2007 NW AHEC Project SEARCH Academy (Student Education, Awareness and Recruitment for Careers in Health)-- a one week, residential summer camp on the campus of Wake Forest University during which rising eighth grade students are exposed to a variety of health science presentations and observation tours. Information about other NW AHEC youth programs can be found by going to our website: northwestahec.org or by contacting Mr. Bernard Roper at (336) 713-7714.

HEALTH SCIENCES STUDENT SUPPORT  
Preceptor to Clinical Teaching Associate Program (CTAs) -- In order to combat the nursing staff and nursing faculty shortage in Forsyth County, Northwest AHEC invited Forsyth Medical Center and North Carolina Baptist Hospital, and the two local nursing-education programs at Winston-Salem State University (WSSU) and Forsyth Technical Community College (FTCC) to develop a collaborative program to formally train acute care nursing staff to become adjunct clinical faculty. This program has expanded the clinical training capacity of the two nursing programs so they can collectively add 210 nursing students each year. Since the program began in 2003, a total of 133 CTAs have completed the program. To learn more about the CTA Program, please contact Ms. Phyllis Horton at (336) 713-7713.

Medical/Physician Assistant Students— Many medical and physician assistant students rotate with local physicians in Forsyth County who bring students with them to see patients in their hospital. Overnight student accommodations are available if needed for all students. The NW AHEC Office of Regional Primary Care Education (ORPCE) provides administrative and financial support for these preceptors and students with their rotations in community settings. A total of 320 students rotated in Forsyth County for a total of 1,480 student weeks for this fiscal year. Some communities have begun to use these student rotation opportunities to develop a community relationship with these students and begin to recruit their interest of potential placement when they have completed their formal health careers degrees. Interested physicians should contact Ms. Angela Hodges at (336) 713-7717.
CONTINUING EDUCATION ACTIVITIES & SERVICES

Northwest AHEC CE activities are marketed to healthcare professionals of Forsyth County Department of Public Health. For FY07, 31 unique FCDPH healthcare professionals registered 39 times for NW AHEC CE activities. More information about CE activities can be found on our website: northwestahec.org or by contacting Ms. Marie Simos at (336) 713-7721.

Nursing Management Institute—The Nursing Management Institute (NMI), an online management curriculum for new or aspiring nurse managers, created and offered by the NW AHEC in partnership with Greensboro AHEC, reported the following enrollments from institutions in Forsyth County: 13 from Forsyth Medical Center/Novant Health, one from Forsyth Technical Community College, two from Wake Forest University Baptist Medical Center, and one from Winston-Salem State University. NMI is just one of several online courses available. More information about CE activities can be found on our website: northwestahec.org or by contacting Ms. Ellen Kesler at (704) 210-5068.

Community Health Partnerships—Northwest AHEC provides technical assistance, consultation, and training to health coalitions in the region to support their efforts for local health improvement. Many of the current coalitions which Northwest AHEC supports are members of North Carolina’s Healthy Carolinians Program. NW AHEC co-sponsors, with the Northwest Office of Healthy Carolinians Consultant, quarterly meetings of the Coalition Coordinators' Network (CCN). Topics this past fiscal year were: Charting a New Course for Chronic Illness Care in Your Community, African-American Churches Eating Smart and Moving More, and Health Literacy. Forsyth County has a well-established Healthy Carolinians group who was represented by 13 attendees during the CCN meetings. Community Health Partnership staff also played an active role on the planning committee for the 2007 Forsyth County Health Summit. For more information about this service, go to our website: northwestahec.org or contact Ellen Kesler at (704) 210-5068.

RN Refresher Program—Northwest AHEC also offers the RN Refresher Program to nurses who want to reinstate their license or update their skills. The curriculum consists of didactic learning and a clinical practicum. Students engage in their clinical practicum at a variety of hospitals in the Northwest AHEC region with which we have contracts. Forsyth Medical Center and North Carolina Baptist Hospital are the two RN Refresher clinical practicum sites in Forsyth County. Seven students at FMC and nine students from NCBH were enrolled in the clinical practicum during the past fiscal year. Most institutions providing the clinical rotations for these students use the opportunity to recruit them for employment once students have successfully completed the program and have earned their RN credentials. If interested, health care organizations should contact Ms. Kay Herr at (336) 713-7720 to learn more about potential opportunities.

INFORMATION & LIBRARY SERVICES

Forsyth Medical Center was previously a member of NW AHEC Information and Library Services. More information about library services can be found at our website: northwestahec.org or by contacting Ms. Nancy Stine at (704) 210-5587.

COMMUNITY- SUPPORTED ACTIVITIES

Quality Improvement Initiative—Northwest AHEC has been actively involved in a major quality improvement initiative over the past year, the North Carolina Rapid Response Team Learning Collaborative. Rapid Response teams are one of the original six interventions of the Institute for Healthcare Improvement’s 100,000 Lives Campaign. The NC RRT Learning Collaborative was one of nine RRT grantees nationwide that were funded by the Robert Wood Johnson Foundation. Partners included the North Carolina Hospital Association, the other NC regional AHECs, the Carolinas Center for Medical Excellence, VHA, and Premier. The goal of the collaborative was to develop, implement, and sustain rapid response teams in 50 North Carolina hospitals. Fifty-five hospitals across the state participated in the collaborative including North Carolina Baptist Hospital. Northwest AHEC staff provided support to the Rapid Response Team at NCBH. This support was provided through face-to-face meetings, conference calls, technical assistance, links to resources, and encouragement.
